SUMMARY

Senior software engineer with 8+ years across aviation, high-traffic consumer platforms and retail. Builds web applications, backend services and AI products. Personal work includes two App Store apps and open-source tools for document retrieval, agents and self-hosted services.

Public summary. Request access to the detailed CV via email or LinkedIn.

EXPERIENCE

Pilatus Aircraft Ltd <i>Senior Full-Stack Software Engineer</i>	04/2024 – Present Switzerland
DonTouch SA <i>Backend Engineer</i>	07/2023 – 04/2024 Switzerland
Hexa Credit Care <i>Full-Stack Developer</i>	11/2019 – 07/2023 Italy
Galileo SpA <i>Full-Stack Developer</i>	03/2018 – 11/2019 Italy

PERSONAL PROJECTS

- Maestro** – Native iOS AI tutor on the App Store: source-grounded lessons, quizzes and tutor chat. SwiftUI, SwiftData, Hono, PostgreSQL.
- GymTree** – Fitness app on the App Store: backend, coach web, mobile app, subscriptions and AI coach. TypeScript, Expo, PostgreSQL, Redis, BullMQ.
- claude-local-docs** – MCP server for local documentation and code retrieval: hybrid search, reranking, AST-aware chunking and incremental indexing. TypeScript, LanceDB.
- Miniform** – Self-hosted form inbox with uploads, webhook/email retries and SQLite storage. Go, Docker; unit, integration and Playwright tests.
- Therapist** – Experimental self-reflection agent with encrypted memory, tool calling, validated outputs and regression tests. Python, PydanticAI.
- matteodante.it** – Interactive portfolio and playable CV with a streaming AI assistant. Next.js, vanilla Three.js, OpenAI Responses API; English/Italian.

SKILLS

- Web & backend:** TypeScript, Node.js, PHP, .NET, Java; React, Next.js, Laravel, Hono, REST, microfrontends
